PROFESSIONAL SUMMARY

Detail-oriented aspiring Web Developer with a solid foundation in Information Technology and hands-on experience in full-stack development. Proficient in JavaScript, CSS, and backend integration, with a strong commitment to building user-friendly applications. Eager to leverage AI tools for efficient coding and problem-solving in a collaborative environment.

WORK EXPERIENCE

IT Intern - Fullstack Web Developer February 2026 - May 2026

PNP Maritime Group, Camp BGen Rafael T Crame, Quezon City, Metro Manila, NCR, Philippines.

- Developed and maintained the frontend design of all assigned web projects, creating responsive, user-friendly interfaces that improved usability and user experience.
- Designed and implemented the frontend and backend architecture of the PRS Memo Tracking System using Python, streamlining document management and retrieval processes.
- Contributed to the development of the Maritime Vessel Inventory System (MVIS) by designing the user interface, developing database structures, and integrating backend functionalities.
- Collaborated with stakeholders to gather system requirements, conducted testing and debugging, and prepared technical documentation to support deployment and maintenance.

Trainee January 2026 - February 2026

Accenture Academy - Technology Microsoft Curriculum

- Gained proficiency in AI Fundamentals, SQL, C#, and ASP.NET Core, honing skills applicable in modern web development.
- Developed various applications based on precise technical specifications, mastering both console and web formats.
- Conducted detailed debugging and testing, identifying and resolving issues to enhance software performance.
- Acquired practical knowledge of AI-driven systems and cloud technologies, preparing for real-world application development.

PROJECT HISTORY

- Letran Knight Bot - AI ChatBot (GPT-4 API), 2024
- Kiosk Machine, 2024
- AI-Driven Web-Based TPS for ISO Documentation with Content Evaluation and Redundancy Checker, 2025
- PNP Maritime PRS Memo Tracking System, 2026
- MVIS - Maritime Vessel Inventory System, 2026

EDUCATION

Bachelor of Science in Information Technology 2022 - 2026

Colegio de San Juan de Letran-Calamba

Basic Education 2009 - 2021

Colegio de San Juan de Letran-Calamba

SKILLS

Programming Languages: Python, Java, C#, C++, JavaScript, PHP
Frontend Development: HTML, CSS, JavaScript
Backend Development: REST APIs, SQL, MySQL, Database Design, Data Validation
Security & Cryptography: Authentication & Authorization, Role-Based Access Control, Data Encryption, Password Hashing, Digital Signatures, Cryptography (Python)
Frameworks & Libraries: Flask, Flask-SQLAlchemy, Tailwind CSS, Pandas, Android SDK, Werkzeug
Tools & Platforms: Git, Azure Fundamentals, Microsoft Office, Canva, Figma, GitHub, Android Studio, Visual Studio, NetBeans, XAMPP
Professional Skills: Team Collaboration, Interpersonal Communication, Teamwork, Problem-Solving, Organizational Skills, Software Development Lifecycle

CERTIFICATIONS & AWARDS

- IT Specialist Java (2025)
- IT Specialist Device Configuration and Management (2026)
- IT Specialist HTML5 Application Development (2024)
- JavaScript Essential 1 & 2 - Cisco (2026)
- HTML Essentials - Cisco (2026)
- CSS Essentials - Cisco (2026)
- Data Science Essentials with Python - Cisco (2026)
- Python Essentials 1 & 2 - Cisco (2026)
- Accenture Academy Completion Certificate (2026)

LANGUAGES & INTERESTS

Languages: Filipino (C2), English (C1)
Interests: Fullstack Web Development, Artificial Intelligence, Cloud Computing, Web Applications
